APPROVAL OF STATE ENGINEER				
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:				
This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 48257 is issued subject to the terms and conditions imposed in said Permit 48257 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. No perforations shall be put in the production casing from ground level to 100 feet. This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent				
effects on existing rights and the resource within the ground water basin. (CONTINUED ON Page 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not				
to exceed 0.03 cubic feet per second, but not to exceed 8.0				
	e completed on or before February 22, 1987			
	March 22, 1987			
	before February 22, 1990			
	e filed on or before March 22, 1990			
Map in support of proof of beneficial use shall be filed on or before				
Completion of work filed				
Proof of beneficial use filed	office, this 12th day of February

2407 (Rev. 6-81)	State Engineer			

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 40900, 47962, 47964, 48257, 48328, 48329, 48330, 48910, 48911, 48912, 49194 and 49198 shall not exceed 5110 acre-feet annually.

The issuance of Permits 49194 and 49198 reduces the annual duty of Permit 48257 to 708 acre-feet.
